

The Diggers Are Coming!

The diggers are coming! The diggers are coming, with massive metal mouths. Their teeth are tearing at the ground and their tracks trudge round and round and round. Follow all the people and vehicles involved in building a house - from the wreckers coming to clear the ground, through planners, bulldozers, diggers, tippers, mixers, trucks, builders, cranes, rollers and vans, to the people coming to move into the new houses. A lively and colourful new book by Susan Steggall, the successful author-illustrator of *Life of a Car*, *On the Road*, *Rattle and Rap* and *Busy Boats*, who uses her trademark vivid collage illustrations to bring a busy building site to life for young readers.

Follow all the people and vehicles involved in building a houseThe diggers are coming! The diggers are coming, with massive metal mouths.
